Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Discussed the claims of record in general. The examiner has agreed to review present and past arguments and in particular give further consideration to the limitation in of claim involving the load filters "having a passband thast includes said particular switching frequency and having a stop band at frequencies higher than said particular switching frequency" and to the limitation of dependent claim 39 involving the limitation "said switching signal are in pahse with one another as siad switching frequency". Applicant states that he will be submitting further response that addresses issues rasied and discussed in this interview. No committment has been made by the examiner as to whether the claims presented are allowable at this time for further review is needed.
